Powered and Developed by:

Question: do you track your current feed budget on a daily basis?

60% of the to INPUT cost in a PIG is FEED,.....CONTROL it TODAY...

F.A.S. Features & Benefits:

- Different functions for the producer, the owner, and the feed mill
- Suggests adjustment based on purchase orders and animal inventory events (also feed invoices)
- Track all cost associated to the hog operation
- Real time reports as they happen to make real time decisions
- **CENTRALIZE** and simplify the feed ordering process
- Manage feed grade medications

✓ **Email Orders**

Producer Benefits:

MONITERS VARIANCES IN FEED CONSUMPTION:
ARE YOU RUNNING AHEAD OF BUDGET OR BEHIND?
WHAT IS CAUSING THIS VARIANCE?

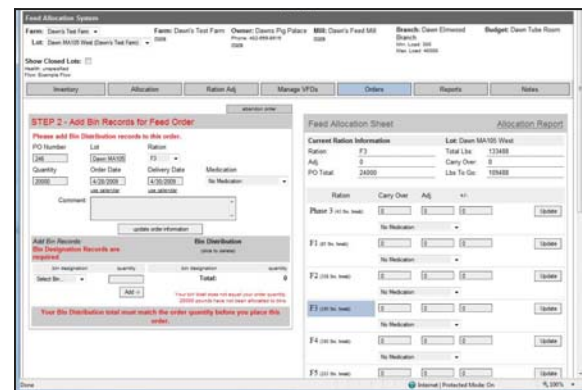

- Track and Control 60% of your input costs today so information can be used **TODAY!**
- Spend less time ordering and more time analyzing your **FEEDING PROGRAM**
- React to current health and environmental conditions, with current pigs
- Designate how much feed per pig per stage is consumed
- Track your pigs feed budget like a financial accounting budget.
- Provides a **PLATFORM** for timely management decisions and executions
- Drives **EXECUTION**, not application or reaction
- Reduce the incidents and duration of feed outages
- Purchase order driven for accountability
- Improve order entry process
- Protects your investment

✓ **Protect Investment**

Integrator Benefits:

- Feed desk now becomes feed **ANALYZERS** rather than order takers
- Provides an auditing standard: every entry is permanent and verifiable.
- Orders can be traced back to farms, groups and vendors
- Easily **EVALUATE** nutrition programs
- Eliminate hand re-entry of feed tickets
- Import Invoices and order with PO's
- Track contracted inputs
- Quick closeout information

✓ **Execute Decisions**

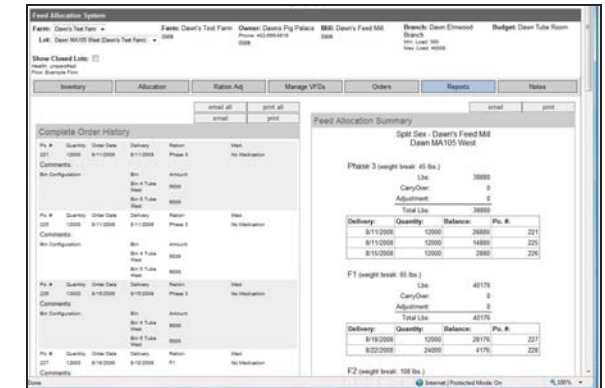

Feed Mill Benefits:

EXTENDS CUSTOMER SERVICE DEPARTMENT:
IMPROVE INFORMATION SYSTEMS
CREATE MORE TIME TO CARE AND SERVICE YOUR CUSTOMERS

- Offer 24 hour **ACCURATE** order entry to fit everyone's schedule
- Ration verification delivers the **RIGHT FEED** at the **RIGHT TIME**
- Frees up order desk for more analytical thinking
- Supply value-added service with real time reporting
- Improve customer service with consultation services
- Adds risk-management feature to feed mill procedures
- Documents feed orders by farm, barn, pen and bin
- Provide better information in less time
- Increase feed delivery accuracy
- Streamline order process
- **INTEGRATES** with in-house feed mill software

✓ **Process VERIFIED**
