WF-19 flex wean to finish

Creative

The Crystal Spring Wet/Dry concept has proven over the years to be the best, most profitable feeder design. The pig is given a choice to feed on dry feed on the shelf or mix it with water in the trough, which increases daily gain and decreases both feed and water waste.

Young pigs as early as 11 lb can now benefit from the additional gains that eating wet feed provides.

The dry shelf lowers to the young pigs height and is easily raised as the pig grows.

- Adjustable Shelf for Optimized Intake
- Patented Water Nipples
- Lower Feeder Lip for Smaller Pigs (4 3/4")
- 5 Year Guarantee (through Gro Master, Inc.)

Quality

- Heavy duty stainless steel construction
- 304 Stainless Steel only, will NOT rust ever
